

Cumulative Index 1988

Volume 4

<i>February</i>	COMMON CLINICAL CHALLENGES IN GERIATRICS, pages 1-240
<i>May</i>	RHEUMATIC DISORDERS, pages 241-470
<i>August</i>	CLINICAL AND POLICY ISSUES IN THE CARE OF THE NURSING HOME PATIENT, pages 471-697
<i>November</i>	TREATMENT CONSIDERATIONS FOR ALZHEIMER'S DISEASE AND RELATED DEMENTING ILLNESS, pages 699-956

Note: Page numbers of article titles are in **boldface** type.

- Acid-peptic disease, management of, in demented patients, 716
- Acquired immunodeficiency syndrome dementia, **901-907**
clinical manifestations of, 903-904
family caregivers for patients with, 951-953
laboratory investigation for, 905
pathophysiology of, 902-903
treatment of, 905-906
- "Age-associated memory impairment," biologic substrates of, 919-924
diagnostic criteria for, 913-915
efforts to define, 918-919
theories of, 916-918
- Aging, disease, physical activity, and, 182-183
diseases of, 347
exercise and, 183-186
- Alcohol, dementia associated with, clinical characteristics of, 889-892
family caregivers for patients with, 947-949
organic mental disorders associated with heavy drinking and dependence on, **881-899**
clinical characteristics of, 886-892
clinical implications for, 893-896
epidemiology for, 882-883
- Alcohol amnestic disorder, clinical characteristics of, 888-898, 890
- Alcohol-associated organic mental disorder, assessment of, 893-895
clinical characteristics of, 886-892
clinical implications of, 893-896
epidemiology for, 882-883
history for, 881-882
treatment of, 895-896
- Alpha antagonists, for treating hypertension, 10
- Alzheimer's disease, dementia in Parkinson's disease and, 793-796
clinical evidence for, 794-796
neuropathologic evidence for, 793-794
in differential diagnosis of dementia, 591-592
management of behavior problems in elderly patients with other dementias and, **719-747**
basic tenets for effective, 721-744
behavioral target signs and symptoms for, 722-724
definition of behavior problems in, 719-721
education for, 728
family and caregiver involvement in, 728

- Alzheimer's disease (*Continued*)
 management of behavior problems in elderly patients with other dementias and, nonpharmacologic treatment modalities for, 726-728
 patient and family unit in, 739-744
 pharmacotherapy for, 728-738
 psychotherapy for, 725-726
- Angina, unstable, acute myocardial infarction and, 118-120
- Angiotensin-converting enzyme inhibitors, for treating hypertension in elderly, 9-10
- Anorexia, care of dying patient and, 645-646
- Antagonist, alpha, for treating hypertension in elderly, 10
- Antiadrenergic drugs, for treating hypertension in elderly, 9
- Anti-aggression agents, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 737
- Antiarrhythmic drugs, age-related changes in effect of, 143
 interactions of, in treatment of cardiac rhythm disorders, 101
 in treatment of cardiac rhythm disorders, 96-100
- Antibiotics, management of, 634-635
 pharmacology and toxicity of, 491-492
- Anticipatory grief, with terminally ill patient, 16-17
- Antidepressant drugs, dementia and, 597-598
 for depression among nursing home residents, 604-606
 in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 735-737
- Antihypertensive drugs, 9-11
 age related changes in effect of, 144
 pharmacologic interactions of, with agents used for coexisting conditions, 7
- Antipsychotic drugs, dementia and, 597
 in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 734-735
 management of, 623-625, 634
- Anxiety, among nursing home residents, 606-608
 diagnosis and clinical features of, 606-607
 epidemiology for, 606
 treatment considerations for, 607-608
 care of dying patient and, 644-645
 definition of, 66-67
- Anxiolytic drugs, dementia and, 598
- Aphasia, primary progressive, dementia and, 801-802
- Atherothrombotic disease, multi-infarct dementia and, 759-760
- Atrial fibrillation, 88-89
- Atrial flutter, 90
- Atrial tachycardia, 86
 multifocal, 90-91
- Atrioventricular block, 92-93
- Atrophies, olivopontocerebellar, dementia and, 811-812
- AV nodal re-entrant tachycardia, 87-88
- AV reciprocating tachycardias, 88
- Bacteriuria, asymptomatic, 57-70
 catheter-associated, 67-68
 clinical manifestations of, 62
 diagnosis of, 64-66
 epidemiology of, 59-61
 microbiology of, 61-62
 pathogenesis of, 57-58
 significance of, 62-64
 treatment of, 66-67
- Balance, posture and, in falls, 616-617
- Basal ganglia disorders, dementia and, 802-806
- B complex vitamins, malnutrition and, 535
- Behavior problems, management of, in elderly patients with Alzheimer's disease and other dementias, 719-747
 basic tenets for effective, 721-744
 behavioral target signs and symptoms for, 721-723
 definitions for, 719-721
 education for, 728
 family and caregiver involvement in, 728
 nonpharmacologic treatment modalities for, 726-728
 patient and family unit in, 739-744
 pharmacotherapy for, 728-738
 psychotherapy for, 725-726
- "Benign senescent forgetfulness," questioning existence of, 897-916
 biologic substrates of, 903-911
 creating diagnosis of, 898-900
 defining, 905-906
 diagnostic criteria for, 900-902
 role of diagnosis and, 897-898
- Bereavement, care of dying patient and, 653
- Beta blockers, for treating hypertension, 10
- Binswanger's disease, multi-infarct dementia and, 754
- Block, atrioventricular, 92-93
 bundle branch, 93-94
 sinoatrial, 92
- Blockers, beta, for treating hypertension, 10
 calcium channel, for treating hypertension, 10
- Blood cells, red, true mass changes in, 48

- Blood production, effects of aging on, 48
Body fat, malnutrition and, 531-532
Bone density, exercise and, 186-187
Bowel, normal function of, definition of constipation and, 571-572
Bradyarrhythmias, 91-96
Bradycardia-tachycardia syndrome, 94-95, 96
Brain, age-related changes in, 74-75
Brain imaging, in evaluation of normal pressure hydrocephalus and dementia, 828-833
Bundle branch block, 93-94
Bypass surgery, coronary artery, in management of coronary artery disease, 120-122
- Calcium, 198
 malnutrition and, 535
Calcium channel blockers, for treating hypertension, 10
Calories, malnutrition and, 534
Cancer, aggressive management of, 29-42
 conclusions from, 39
 natural history and clinical course of, 29-31
 screening and diagnosis of, 31-32
 treatment of, 32-39
 gastrointestinal, appropriate prevention and detection of, 223-233
 detection of, 230-231
 stomach, 229-230
 prevention of, 230
Cardiac catheterization, in management of coronary artery disease, 115-116
Cardiac rhythm disorders, diagnosis and treatment of, 83-110
 antiarrhythmic drug interactions in, 101
 antiarrhythmic drug therapy in, 96-100
 bradyarrhythmias and, 91-96
 electrocardiogram in, 83-85
 pacemaker therapy in, 101-105
 pharmacodynamic alterations and, 100-101
 tachyarrhythmias and, 85-91
Cardiovascular drugs, age related changes in effect of, 138-144
Caregiver-patient partnership, basic issues of disease management in demented patients and, 704
Carotid sinus, hypersensitive, 95
Catheter, bacteriuria associated with, 67-68
Catheterization, cardiac, in management of coronary artery disease, 115-116
Cerebral dysfunction, with focal lesions, dementia following stroke and, 776-777
Cerebral infarction, relationship of dementia to, 752
Cerebrovasodilators, multi-infarct dementia and, 760-761
Choline, brain function and, 834
Chronic disease, anemia of, 51
 depression and, 208-212
Cisternography, in evaluation of normal pressure hydrocephalus and dementia, 820
Cognitive performance, basic issues of disease management in demented patients and, 706
Colectomy, in treatment of constipation, 585
Colon, normal function of, 572-573
Colon cancer, 223-225
 carcinogenesis in, 224
 detection of, 225
 dilution of, by dietary fiber, 225
 fat as promoter of, 224-225
 prevention of, 223-224
Colorectal carcinoma, identification of population at high risk for, 225-229
 screening for, 226-228
Competency, determinations of, 669-671
 of terminally ill patient, 21
Computed tomography, in evaluation of normal pressure hydrocephalus and dementia, 821-823
Consciousness, alteration of, dementia following stroke and, 773-774
 depressed, malnutrition and, 529
Constipation, care of dying patient and, 647-648
 causes of, 573-575
 chronic severe, 579-580
 complications of, 576-579
 definition of, normal bowel function and, 571-572
 diagnosis of, 575
 fecal impaction and, in long-term care patient, 571-588
 causes of, 573-575
 chronic severe, 579-580
 complications of, 576-579
 diagnosis of, 575
 normalcy versus, 571-572
 treatment of, 580-586
 treatment of, 580-585
Consultant care, coordination of, by nursing home medical director, 501-502
Coronary artery bypass surgery, in management of coronary artery disease, 120-122
Coronary artery disease, approach to management of, 111-126
 cardiac catheterization in, 115-116
 coronary artery bypass surgery in, 120-122
 echocardiography in, 114-115
 exercise testing in, 113-114
 making diagnosis in, 111-113
 medical management in, 116-118

- Cortical degeneration, dementia and, 806-808
- Corticosteroids, brain function and, 847
- Cough, care of dying patient and, 651
- Creatinine-height index, malnutrition and, 533
- Creutzfeldt-Jakob disease, dementia and, 808-810
- Daytime sleepiness, napping and, 76
- Decision making, by and for nursing home residents, 667-679
- determinations of competency and, 669-671
- "do not" orders and, 673-677
- informed consent and, 668-669
- proxy decision making and, 671-673
- resident's rights and, 667-668
- Decubitus ulcers, dietary needs with, 538
- Degeneration, cortical, dementia and, 800-802
- Deglutition, disorders of, malnutrition and, 529
- Dementia, 24
- acquired immunodeficiency syndrome, 880-895
- clinical manifestations of, 891-892
- family caregivers for patients with, 925-940
- laboratory investigation for, 893
- pathophysiology of, 890-891
- treatment of, 893-894
- alcohol-related, family caregivers for patients with, 931-933
- approach to management of medical problems in, 703-717
- association of illness with cognitive performance and, 704
- basic issues of disease management in, 704-707
- cardinal symptoms of disease in, 705-706
- caregiver-patient partnership in, 704
- general health maintenance in, 714-716
- limited treatment plans in, 704-705
- management of acid-peptic disease in, 714
- management of acute medical illnesses in, 707-709
- management of chronic diseases in, 709-714
- management of diabetes mellitus in, 712-713
- management of hypertension in, 711-712
- management of osteoarthritis in, 713-714
- patterns of disease in, 706
- role of medications in, 706-707
- as sequela to other neurologic diseases, 799-814
- basal ganglia disorders and, 802-806
- cortical degeneration and, 800-802
- Creutzfeldt-Jakob disease and, 808-810
- pseudodementia and, 810-811
- traumatic dementias and, 806-808
- assessment and management of, in nursing home, 589-600
- Alzheimer's disease and, 591-592
- classes of drugs for, 596-598
- clinical course and complications in, 593-595
- diagnosis and assessment in, 590-591
- differential diagnosis in, 591-599
- drug toxicity and, 593
- multi-infarct dementia and, 592
- pharmacotherapy for, 596-598
- principles of psychotropic use in, 596-597
- pseudodementia and, 592
- specialized programs for, 599
- treatment of patient and family in, 595
- associated with alcoholism, clinical characteristics of, 901-907
- B₁₂ and folate deficiency, 841-852
- clinical controversies in, 847-850
- co-enzyme functions in, 846-847
- evidence for, 844-846
- neurologic consequences in, 842-843
- pathologic basis of, 843-844
- without hematologic abnormality, 843
- complete work-up for, 163-180
- differential diagnosis in, 175
- history in, 163-166
- neurologic examination in, 166-175
- dialysis, 853-867
- aluminum metabolism and, 860-861
- clinical features of, 855-858
- epidemiology of, 853-855
- etiology of, 855, 859-860
- neuropathology of, 859
- treatment and prevention of, 861-863
- dietary needs in patients with, 536-537
- drug toxicity and, 593
- evaluating life-sustaining treatments for persons with, 917-924
- models for, 918-920
- treatment planning for, 920-922
- evident, 594
- family caregivers for patients with non-Alzheimer's, 925-940
- clinical interventions with, 928
- impact of caregiving on, 926-927
- interventions with, 927-928
- following stroke, 767-784
- alteration of consciousness and, 771-772
- cerebral dysfunction with focal lesions and, 772-773
- features of, 773-774

- functional capacities evaluation and, 779
 - history of, 774-775
 - hydrocephalus and, 771
 - intracranial hemorrhage and, 768-770
 - medical evaluation and, 771-778
 - mental status examination and, 776-777
 - neurologic examination and, 775-776
 - neurologic sequelae and, 771
 - neuropsychologic evaluation and, 778
 - nursing assessment and, 780
 - psychiatric consultation and, 779
 - recognition of, 774
 - speech evaluation and, 778-779
 - stroke outcome and, 770-773
 - survival and, 770
 - "frontal lobe," Parkinson's disease and, 792-793
 - gait ataxia, incontinence and, 815-816
 - Huntington's, family caregivers for patients with, 933-934
 - late, 594-595
 - management of behavior problems in elderly patients with Alzheimer's disease and, 719-747
 - basic tenets for effective, 721-744
 - behavioral target signs and symptoms for, 721-723
 - definition of behavior problems in, 719-721
 - education for, 728
 - family and caregiver involvement in, 728
 - nonpharmacologic treatment modalities for, 726-728
 - patient and family unit in, 739-744
 - pharmacotherapy for, 728-738
 - psychotherapy for, 725-726
 - multi-infarct, 592
 - family caregivers for patients with, 929
 - understanding and treating, 749-766
 - atherothrombotic disease and, 759-760
 - cerebrovasodilators and other agents in, 760-761
 - clinical syndromes and, 754-755
 - differential diagnosis and, 751-753
 - epidemiology of stroke and, 751
 - heart disease and, 758-759
 - management of hypertension and, 755-757
 - relationship of dementia to cerebral infarction and, 750
 - risk factors in treatment of, 757-758
 - specific treatment for, 755-761
- normal pressure hydrocephalus and, evaluation and treatment of, 815-830
 - brain imaging in, 820-825
 - clinical syndrome in, 815-817
 - CSF circulation and pathophysiology of ventricular enlargement in, 817-819
 - CSF shunting procedures for, 825-827
 - initial diagnostic testing in, 819-820
 - outcome characteristics for, 827
 - of depression, family caregivers for patients with, 934-935
 - of Parkinson's disease, 785-797
 - Alzheimer's disease and, 787-790
 - family caregivers for patients with, 931
 - "frontal lobe" dementia and, 792-793
 - incidence of, 786-787
 - prospects for treatment of, 793-794
 - subcortical dementia and, 790-792
 - psychotropic drugs and, 596-597
 - secondary to metabolic and nutritional abnormalities, 831-839
 - possible mechanisms for, 837
 - subcortical, Parkinson's disease and, 790-792
 - traumatic, 806-808
 - treatment considerations in, 699-702
- Dementia pugilistica, 820
 - Denial, by terminally ill patient, 16
 - Dentition, poor, malnutrition and, 529
 - Depressed consciousness, malnutrition and, 529
 - Depression, among nursing home residents, 601-606
 - diagnosis and clinical features for, 602-603
 - epidemiology for, 601-602
 - pharmacological approaches for, 604-606
 - psychological approaches for, 603-604
 - treatment considerations with, 603
 - care of dying patient and, 644-645
 - chronic illness and, 208-212
 - definition of, 66
 - dementia of, family caregivers for patients with, 938-940
 - diagnosis of, application of Diagnostic and Statistical Manual (DSM III) criteria in, 204-206
 - epidemiology, morbidity, and mortality of, 206-208
 - malnutrition and, 530
 - treatment of, 212-215
- Detrusor, overactivity of, established incontinence and, 555
 - treatment of, 562-564
 - underactivity of, established incontinence and, 555
 - treatment of, 567-568
- Diabetes, management of, in demented patients, 714-715
 - Diagnostic and Statistical Manual (DSM III), application of criteria from, in diagnosis of depression, 204-206
 - Dialysis dementia, 853-867
 - aluminum metabolism and, 859-860
 - clinical features of, 854-857

- Dialysis dementia (*Continued*)
epidemiology of, 852-854
etiology of, 854, 858-859
neuropathology of, 858
treatment and prevention of, 860-862
- Diarrhea, care of dying patient and, 647-648
dietary needs with, 538
enteral feeding and, 541
presentation of, in nursing home patients, 515, 538
- Diet, 283-285
assessment of, 199
counsel for, 199-200
for dementia patients, 536-537
guidance in, 193-202
- Dietary fat, 196
- Digitalis, age related changes in effect of, 140-141, 143
- Direct vasodilators, for treating hypertension, 10
- Disease, aging, physical activity, and, 182-183
Alzheimer's, in differential diagnosis of dementia, 591-592
basic issues of management of, in demented patients, 704-707
association of illness with cognitive performance in, 704
cardinal symptoms in, 705-706
caregiver-patient partnership in, 704
limited treatment plans in, 704-705
patterns in, 706
role of medications in, 706-708
- chronic, anemia of, 51
depression and, 208-212
coexisting with hypertension, considerations in, 6-7
infectious, presentation of, 509-515
management of, in demented patients, for acute medical illnesses, 707-709
for chronic illnesses, 709-714
general health maintenance in, 714-716
of aging, exercise and, 183-186
- Disease staging, importance of, 495-500
- Diuretics, age related changes in effect of, 144
for treating hypertension, 9
"Do not" orders, 673-677
- Drug interactions, age related changes in effect of, 144
- Drug-nutrient interactions, effect on drug action of age related changes in, 137-138
- Drugs, altered action of, pharmacodynamic basis for, 127-149
antiadrenergic, for treating hypertension, 9
antiarrhythmic, age related changes in effect of, 143
interactions of, in treatment of cardiac rhythm disorders, 101
in treatment of cardiac rhythm disorders, 96-100
antibiotic, management of, 634-635
antidepressant, dementia and, 597-598
for depression among nursing home residents, 604-606
antihypertensive, 9-11
age related changes in effect of, 144, 144
pharmacologic interactions of, with agents used for coexisting conditions, 7
antipsychotic, dementia and, 598
management of, 623-625, 634
anxiolytic, dementia and, 598
calcium metabolism and, 395-397
cardiovascular, age related changes in effect of, 138-144
characteristics of, suitable for elderly hypertensive patients, 8-9
influence of aging on metabolism and distribution of, in treating hypertension, 7-8
interactions of nutrient supplements with, 304
malnutrition and, 529
metabolism of, 298-299
age effects on, 304-306
monitoring, 633-634
multiple, for treating hypertension, 11
neuroleptic, dementia and, 597
psychotropic, dementia and, 596-597
stimulating, dementia and, 598
tranquilizing, dementia and, 597, 598
- Drug therapy, dementia and, 596-598
goals of, 623
- Drug toxicity, dementia and, 593
- Durable power of attorney, for terminally ill patient, 24
- Dying, discussion of, with terminally ill patient, 14
- Dying patient, care of, 639-654
aesthetic considerations in, 652
anorexia and, 645-646
anxiety and depression in, 644-645
bereavement and, 653
constipation and diarrhea and, 647-648
cough and, 651
developing plan for, 640-641
dyspnea and, 651-652
gastrointestinal symptoms and, 645-648
hiccups and, 651
mouth problems and, 646-647
nausea and vomiting and, 646
pain and, 642-644
pressure sores and, 649-650
pruritus and, 650
respiratory problems and, 650-652
skin problems and, 649-650

- symptom control in, 641-642
 - urinary problems and, 649
- Dyspnea, care of dying patient and, 651-652
- Echocardiography, in management of coronary artery disease, 114-115
- Education, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 730
- Elderly, anemia in, approach to, 43-55
 - pharmacologic causes of plasma volume alteration in, 47-48
 - physiologic variations of plasma volume and, 45-47
 - prevalence of, 43-44
 - anemia of chronic disease in, 51
 - appropriate prevention and detection of gastrointestinal neoplasms in, 223-233
 - arguments for changing normal hematologic values in, 44-45
 - asymptomatic bacteriuria in, 57-70
 - catheter-associated, 67-68
 - clinical manifestations of, 62
 - diagnosis of, 64-66
 - epidemiology of, 59-61
 - microbiology of, 61-62
 - pathogenesis of, 57-58
 - significance of, 62-64
 - treatment of, 66-67
 - benefits of exercise for, 181-192
 - blood production in, 48
 - bradyarrhythmias in, 91-96
 - calcium in diet of, 198
 - cancer in, aggressive management of, 29-42
 - conclusions from, 39
 - natural history and clinical course of, 29-31
 - screening and diagnosis of, 31-32
 - treatment of, 32-39
 - assisted suicide and euthanasia in, 543-545
 - ethical and legal issues in care of, 541-547
 - infections in, 549-559
 - diagnosis of, 555-556
 - host and tumor factors in, 550-557
 - prevention of, 557
 - risk of, 550-555
 - treatment of, 556-557
 - life-prolonging decisions in care of, 541-542
 - right to die and, 542-543
 - treatment decision status in care of, 545-546
- carbohydrates in diet of, 197
- changes in brain of, 74-75
- changes in iron metabolism in, 49-50
- changes in physiologic systems of, 75
- changes in sleep parameters in, 77-78
- clinical pharmacology of nortriptyline in, 215-219
- colon cancer in, 223-225
 - carcinogenesis in, 224
 - detection of, 225

 clinical implications of, 881-884
 epidemiology for, 870-871
 Organ pathologic conditions, effect on drug action of age related changes in, 133-135
 Osteoarthritis, management of, in demented patients, 713-714
 Outpatient Geriatric Psychiatry Assessment and Treatment Service, impacts and outcome of, 206-207
 structure and function of, 204-206
 Overactivity, detrusor, established incontinence and, 555
 treatment of, 562-564
 Pacemaker, in treatment of cardiac rhythm disorders, 101-105
 Pain, basic issues of disease management in demented patients and, 705-706
 care of dying patient and, 642-644
 Palsy, progressive supranuclear, dementia and, 802-804
 Paranoia, among nursing home residents, 608-610
 diagnosis and clinical features in, 609
 epidemiology for, 608-609
 treatment considerations in, 609-610
 Parkinson's disease, 23
 dementia of, 785-797
 Alzheimer's disease and, 787-790
 "frontal lobe" dementia and, 792-793
 incidence of, 786-787
 prospects for treatment of, 793-794
 subcortical dementia and, 790-792
 family caregivers for patients with dementia of, 931

- Patient-caregiver partnership, basic issues of disease management in demented patients and, 704
- Pharmacodynamics, as basis for altered drug action, 127-149
- in treatment of cardiac rhythm disorders, 100-101
- Pharmacotherapy, 525
- in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 728-738
- Physician, role of, with terminally ill patient, 13-27
- Pick's disease, dementia and, 800-801
- Plasma volume, pharmacologic causes of alteration in, 47-48
- physiologic variations of, 45-47
- PLMS, in elderly, 76
- Pneumoencephalography, in evaluation of normal pressure hydrocephalus and dementia, 828-829
- Pneumonia, presentation of, in nursing home patients, 510-511
- Polymedicine, management of, 627-629
- Postreceptor mechanisms, effect on drug action of age related changes in, 135-137
- Posture, balance and, in falls, 616-617
- Power of attorney, durable, for terminally ill patient, 24
- Prazosin, for treating hypertension, 10
- Pressure sores, care of dying patient and, 649-650
- presentation of, in nursing home patients, 512-513
- Progressive supranuclear palsy, dementia and, 802-804
- Protein, 196-197
- Proxy consent, family and, of terminally ill patient, 25
- Pruritus, care of dying patient and, 650
- Pseudodementia, 592, 816-817
- Pseudohypertension, 1-2
- Psychiatric disorders, among nursing home residents, 601-611
- Psychological environment, humanizing, 504-505
- Psychotherapy, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 725-726
- Psychotropic agents, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 733-738
- Psychotropic drugs, dementia and, 596-597
- Radiology, coordination of, by nursing home medical director, 502
- Receptor mechanisms, effect on drug action of age related changes in, 135-137
- Reciprocating tachycardia, AV, 88
- Red blood cells, true mass changes in, 48
- Re-entrant tachycardia, AV nodal, 87-88
- intra-atrial, 87
- Research, clinical, by nursing home medical director, 501
- Reserpine, for treating hypertension, 10-11
- Resident's rights, 667-668
- Respiratory problems, care of dying patient and, 650-652
- Right to die, of terminally ill patient, 21-22
- Sensory stimulation, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 727-728
- Septic patients, dietary needs in, 537
- Serum ferritin, value of, 50
- Serum proteins, malnutrition and, 532-533
- Shunting procedures, in treatment of normal pressure hydrocephalus and dementia, 833-835
- Sick euthyroidism, 158-159
- Sigmoidoscopy, flexible, 229
- Sinoatrial block, 92
- Sinoatrial tachycardia, 87
- Sinus tachycardia, 86
- Skin problems, care of dying patient and, 649-650
- Sleep, description of, 71-72
- normal, 71-81
- parameters for, age-related changes in, 77-78
- sources of changes in, 74-76
- stages for, 77-78
- studies on, precautions in interpretation of, 72-74
- Sleep apnea syndrome, 75-76
- Sleep disorders, 75-76
- Sleepiness, daytime, napping and, 76
- Sleep-related movements, 76
- Smell, altered, malnutrition and, 529
- Socialization, in management of behavior problems in elderly patients with Alzheimer's disease and other dementias, 727
- Sodium, in diet, 198
- Sores, pressure, care of dying patient and, 649-650
- presentation of, in nursing home patients, 512-513
- Staff environment, humanizing, 504
- Stimulants, dementia and, 598
- Stomach cancer, 229-230

- Stress incontinence, treatment of, 564-566
- Stroke, dementia following, 767-784
 alteration of consciousness and, 771-772
 cerebral dysfunction with focal lesions and, 772-773
 features of dementia and, 773-774
 functional capacities evaluation and, 779
 history of dementia and, 774-775
 hydrocephalus and, 771
 intracranial hemorrhage and, 768-770
 medical evaluation and, 777-778
 mental status examination and, 776-777
 neurologic examination and, 775-776
 neurologic sequelae and, 771
 neuropsychologic evaluation and, 778
 nursing assessment and, 780
 psychiatric consultation and, 779
 recognition of dementia and, 774
 speech evaluation and, 778-779
 stroke outcome and, 770-773
 survival and, 770
 epidemiology of, 751
 in elderly patients, 22
 lacunar, multi-infarct dementia and, 754
- Subarachnoid hemorrhage, dementia following stroke and, 768-769
- Subcortical dementia, Parkinson's disease and, 790-792
- Subdural and epidural hemorrhage, dementia following stroke and, 770
- Suppositories, in treatment of constipation, 585
- Systolic hypertension, 2-3
- Tachyarrhythmias, 85-91
- Tachycardia, atrial, 86
 AV nodal re-entrant, 87-88
 AV reciprocating, 88
 intra-atrial re-entrant, 87
 junctional, 86-87
 multifocal atrial, 90-91
 sinoatrial, 87
 sinus, 86
 ventricular, 91
- Taste, altered, malnutrition and, 529
- Tensions, of nursing home medical director, 505
- Terminally ill patient, anticipatory grief and, 16-17
 Christian affirmation of life and, 24
 competence of, 21
 denial by, 16
 discussion of dying with, 14
 durable power of attorney for, 24
 euthanasia or right to die and, 21-22
 giving psychological support to, 17-18
 how to communicate with, 13-20
 intervention with family and, 19-20
 issues encountered when dealing with, 21-26
 living will for, 22-24
 "no code" for, 24-25
 patient-family conflicts and, 25-26
 physician's role with, 13-27
 proxy consent and family of, 25
 rights of, 19
 stages of dying for, 18-19
 telling truth to, 15
- Thiamine, brain function and, 845
- Thyroid, function of, 151-161
 medullary carcinoma of, 748
 morphology of, 151
 review of normal physiology of, 151-152
- Thyroid hormones, aging and, 153
- Thyroid regular mechanisms, aging and, 153-154
- Training, for nursing home medical director, 505
- Tranquilizers, dementia and, 597, 598
- Transfers, coordination of, by nursing home medical director, 502
- Transient incontinence, 551-554
- Tube feeding, enteral, choice of formula for, 540
 complications of, 540-541
 providing, 539
 gastrostomy/jejunostomy, providing, 539-540
- Tuberculosis, presentation of, in nursing home patients, 513-514
- Ulcers, decubitus, dietary needs with, 538
- Underactivity, detrusor, established incontinence and, 555
 treatment of, 567-568
- Unstable angina, acute myocardial infarction and, 118-120
- Urinary problems, care of dying patient and, 649
 impact of age on, 550-551
 presentation of, in nursing home patients, 511-512
- Vascular problems, multi-infarct dementia and, 754-755
- Vasodilators, direct, for treating hypertension, 10
- Ventricular enlargement, pathophysiology of, 818-819
- Ventricular pressure recordings, in evaluation of normal pressure hydrocephalus and dementia, 821-822
- Ventricular tachycardia, 91

- Vitamin B₁₂, brain function and, 928
Vitamin B₁₂ dementia, folate deficiency dementia and, 841-852
 cerebral effects in, 841-847
 clinical controversies in, 847-850
 coenzyme functions in, 846-847
 evidence of, 844-846
 neurologic consequences in, 842-843
 pathologic basis of, 843-844
 without hematologic abnormality, 843
Vitamin C, malnutrition and, 535
Vitamin D, 198
 malnutrition and, 535
Vitamins, B complex, malnutrition and, 535
 malnutrition and, 535-536
Voiding, record of, incontinence and, 558-559
Volitional feedings, providing, 538-539
Vomiting, care of dying patient and, 646
Wakefulness, 77
Water, malnutrition and, 536
Weight loss, basic issues of disease management in demented patients and, 705
Wernicke's syndrome, clinical characteristics of, 874-878
Whole gut irrigation, in treatment of constipation, 585
Zinc, malnutrition and, 535-536
